

Bindomatic 5000

A powerhouse of possibilities at your fingertips

The Bindomatic 5000 can be used as your only document binder or as a complement to one of our larger automatic machines. Which ever way you choose, you will not fail to be impressed with this powerful little machine, which can take on more than you might initially think.

The finished results are remarkably like that of a print shop.

DIMENSIONS: 440 x 270 x 155mm

WEIGHT: 5.5kg

BINDOMATIC®
A professional impression

High volume flexibility

The Bindomatic 5000 gives you an array of options. To start with, it can bind documents of between 1 to 540 pages in covers which are 1.5 – 54mm wide. Then you have the benefit of being able to choose a format to suit you – for example, A5, B5, through to A4 and up to a vertical A3. The Bindomatic 5000 can even manage printouts of up to 370mm in length.

Perhaps you want to remove a page or add one? No problem – just re-heat the document.

Creating a professional impression is easy!

① Measure the set of paper with the cover size selector.

② Put the set of paper in a Bindomatic cover with the correct spine width.

③ Place one or several documents on the Bindomatic 5000 heating plate. Wait a few moments for the signal - binding is complete.

④ Place the documents on the cooling plate for a few minutes.

⑤ Congratulations – you have produced a professionally bound document in an instant!
